WHO IS WORKFORCE

U.S. WorkForce Rx is dedicated to delivering the right medications at the right time, directly to every injured U.S. worker's home or office. Our model connects patients immediately to a concierge for VIP treatment and access.

As part of the WRS company and mission, we dedicate our efforts to providing expert, multi-modal, non-opioid pain management solutions to patients that suffer from a musculoskeletal injury or chronic pain.

Our goal? To enhance and restore quality of life with a commitment to prevent opioid dependency, once and for all.

Our WorkForce, for every workforce.

HOW IT WORKS

Have your prescriptions sent directly to your front door or to your place of work.

The U.S. WorkForce Rx medication delivery pharmacy program eliminates the hassles and time spent waiting for approval at the pharmacy.

With your authorization, your physician will fax your prescriptions to us. We work directly with your insurance payer, so you don't have to, and we deliver your medications to the address you specify.

Qualified prescriptions received by us before 3:00 PM ET are shipped for next day delivery.

Our pharmacy is licensed by the DEA and your state pharmacy board.

FREQUENTLY ASKED QUESTIONS

What is the cost of this program?

Nothing. U.S. WorkForce Rx will cover the cost, including shipping, by working directly with your insurance company.

What paperwork do I need to complete?

Just one piece: the Patient Information Form

How will I know when my prescriptions will arrive?

Our program delivers most medications next day using UPS. Upon shipment, we will send you an email or text message with tracking information.

Do I have to be home to receive my medications?

No. UPS can deliver without a signature, although you have the option to require a signature.

Can I have my prescriptions delivered to my workplace?

Yes. You specify the address where you want your medications delivered. The only requirement is that next day deliveries cannot be delivered to a PO Box.

Do instructions come with my medicine?

Yes, along with information about allergies and side effects.
